## Hand Rail Fittings

Hand Rail Fittings, or 'slip on rail' connectors, are made of an extremely corrosive resistant aluminum cast giving a light weight, durable, long lasting, rust proof pipe frame joint. These piping fasteners are available in three sizes for 1 3/8", 1 5/8" & 2" (outside diameter or 'nominal') round pipe and accommodate any metal pipe frame joining angle. They can be used to speed connect any round metal pipe including aluminum, steel and iron. Each quick rail fitting slips on and comes with a set screw to secure the pipe in the fitting.

**No threading, bending, or welding is needed.**

Send us your project idea and we will break down the materials for you.

#1 Side Outlet Cross

#2 Joining Tee

#3 Economy Tee

#4 Elbow

#5 Coupling

#6 Economy Crossover

#7 Crossover

#8 Swivel Tee

#9 Rack King

### Common Applications:

Hand railings | Tent frames | Car ports | Displays  
 Grape vines | Clothing racks | Closet racks | Awning  
 Stair railings | Sports Netting | Industrial Shelving  
 Safety Railing | Sukkoth Arches | Stage Lighting

Available in 3 sizes:

(nominal fence pipe size)

**NOTE:** The sizes above are the outside diameter of the pipe. Our fittings are made to slip onto the pipe. To make sure you are getting the correct size, measure the outside diameter of your pipe.
