## PORTABLE PRIVACY SCREENING

(Available in White or Green)

### Portable Decorative Fence - Vinyl Lattice Fencing

• Academy's Decorative Fence is a high density (HDPE) vinyl lattice panel divider system which is fully portable and adjustable to accommodate any size or layout. These uniquely designed modular fences are great for dividing or sectioning off any area, cafe, garden seating, smoking section, booth, partition, etc. Designed with self standing posts requiring no ground attachment, they are made for any indoor or outdoor flat surface. Sections between posts can be made up of one, two, or three, 30" high x 20" wide panels. The total height of the fencing from the ground is 36".

### *"Introducing our Newly Designed Portable Privacy Screening System"*

#### Portable Privacy Screens

Provide an ideal privacy screening to partition an outdoor cafe, restaurant, terrace or for along side the pool. Each self standing divider is designed to butt up against each other leaving no gap and making for easy setting up and rearranging. The sections are 30" wide and come in three different heights, 1 panel - 36" high, 2 panel - 56" high and 3 panel - 76" high. Ideal on any indoor or outdoor flat surface. Climbing plants can then climb the lattice to create a true garden trellis effect.

**The Portable Privacy Screens and Portable Arbors have an identical mounting design and are made to use in combination. A great way to create privacy in an area and have an entrance way.**

#### Portable Arbor

Fully movable and extremely easy to assemble and disassemble. The sides are lattice trellises, ideal for an entrance way into the yard or garden. The approximate dimensions are 48" wide x 82" high x 30" deep, with 36" between the planters. Available in white or hunter green. These Arbors are self standing or can be used in combination with the Privacy Screening.
