NOTE:

If this application involves any type of construction, a building permit also may be required. Please contact the Construction Department. West Caldwell Revised General Ordinances 13-1.

If this application involves soil movement, please file a soil moving permit with the Township Engineer. The following work is exempt: excavation for building foundations, swimming pools or driveways related to one single-family residential building not part of a two-lot-or-more subdivision approval, or excavation for lines, septic tanks or sanitary sewer installations. West Caldwell Revised General Ordinances 16-13.

If this application requires excavating more than two cubic yards of soil (as determined by the Township Engineer), a lot grading permit shall be required to evaluate any soil disturbance or any alterations to existing grade (drainage), whether or not a zoning or construction permit is required. West Caldwell Revised General Ordinances 16-15.
